

Rig-A-Lite

LED Solutions for Industrial Applications
**Advanced lighting for
demanding environments**

Designed for optimal performance in today's industrial applications

Established in 1938 to support the rugged lighting requirements of the drilling industry, Rig-A-Lite quickly earned a reputation for quality, dependability and performance. Today, our focus has expanded to providing long-lasting, purpose-built products to a vast array of demanding industries, including petrochemical, midstream oil and gas, food processing, water treatment and steel production.

Ruggedly constructed with the highest quality materials, Rig-A-Lite Products are designed for lasting

performance within the most hostile of industrial environments. From highly corrosive chemicals and extreme temperatures to jarring vibrations and punishing wash down, our diverse portfolio of LED solutions provides superior illumination and maximum durability.

To complement durable design and performance, our designs provide the unique benefit of field-replaceable circuit boards and drivers. With a high degree of serviceability, individual components can be replaced as needed, maximizing service life while lowering total cost of ownership.

*Safe, reliable lighting from a partner
with almost 80 years' experience.*

The hardest-working fixtures for the toughest environments

*Focused on harsh environments since its inception,
AZZ's expertise and experience are unmatched*

CHL LED

Key Features

- ① Low-profile, lightweight design
- ② Heavy-duty, 1/8" thick body
- ③ 3/4" NPT hubs
- ④ Three cable entry points
- ⑤ Toolless, cage-clamp terminal block
- ⑥ Captive junction box cover and hardware
- ⑦ Field-replaceable circuit boards and drivers
- ⑧ Impact resistant polycarbonate lens

Non-metallic heavy duty linear LED lighting for hazardous locations

Additional Features

- Feed-through capable
- Various mounting options
- Emergency battery back-up
- Dimmable driver
- Diffused lens option
- Standard 10kV surge protection
- 5-year warranty

- UL 844 hazardous locations
- UL 924 emergency lighting
- Emergency battery back-up
- 65°C ambient temperature
- CSA c22.2 No. 250.0-08
- CSA c22.2 No. 137-M1981
- NEMA 4X
- IP66
- Tested to LM 79 & LM 80

Classifications

- Class I, Division 2, Groups A, B, C and D
- Class II, Division 2, Groups F and G
- Class III
- Class I, Zone 2, Groups IIA, IIB, IIC, Zone 22 (ANSI/UL 844)
- UL 1598A marine outside type
- UL 1598 wet locations
- UL 8750 LED safety

Standard Materials

Body: fiberglass-reinforced polycarbonate

Gasket: one-piece silicone

Mounting brackets: stainless steel

Lens: polycarbonate

Hubs (2): A360 aluminum (less than .4% copper content)

Hardware: stainless steel

HNMF2 LED

Key Features

- ① Single piece fiberglass reinforced housing with 1/2 in. conduit ports on each end.
- ② Lens is securely held in place by tool free polymeric latches. Stainless Steel and tamper proof latches are available as options.
- ③ Flexible, impact resistant acrylic lens.

*Linear LED lighting
for hazardous locations*

Additional Features

- Vibration dampening, factory-installed mounting feet
- Dimmable driver
- Optional polycarbonate lens
- Supplemental 10kV surge protection
- 5-year warranty

Standard Materials

Body: single-piece fiberglass
Lens: impact-resistant acrylic
Hardware: stainless steel

MHL LED

Key Features

- ① Low-profile, lightweight design
- ② Heavy-duty, 3/8"-thick die-cast safety cable attachment points
- ③ Toolless, cage-clamp terminal block
- ④ Captive junction box cover, attached by nylon-coated, stainless steel cable
- ⑤ Field-replaceable LED circuit boards and drivers with quick disconnects
- ⑥ Adjustable mounting bracket with 60° range-of-motion and nine locking positions
- ⑦ Impact-resistant clear or diffused lens

Linear LED lighting for hazardous locations

Additional Features

- Central safety cable attachment points for increased safety/reduced range of motion
- Feed-through capable
- Optional end brackets for chain mount applications
- Emergency battery back-up
- Standard 10kV surge protection
- 5-year warranty

- -40°C to 65°C ambient temperature
- CSA C22.2 No. 250.0-08
- CSA C22.2 No. 137-M1981
- ATEX/IEC/EX approvals

Durable design and high-quality materials deliver exceptional illumination year after year in the most punishing environments

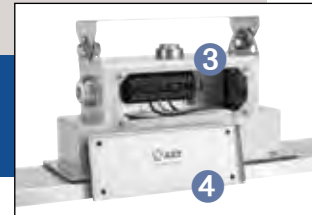

MHLS LED

Key Features

- ① Low-profile, lightweight design
- ② Integral safety cable attachment points
- ③ Toolless, cage clamp terminal block
- ④ Captive junction box cover, attached by nylon-coated, stainless steel cable
- ⑤ Field-replaceable LED circuit boards and drivers with quick disconnects
- ⑥ Adjustable mounting bracket with 60° range of motion and nine locking positions
- ⑦ Impact-resistant clear or diffused lens

*Stainless steel linear LED lighting
for hazardous locations*

Additional Features

- Central safety cable attachment points for increased safety/reduced range of motion
- Feed-through capable
- Optional end brackets for chain mount applications
- Emergency battery back-up
- Standard 10kV surge protection
- 5-year warranty

- UL 924 emergency lighting

Rig-A-Lite

LHFL LED

Key Features

- 1 High-performance precision optics system
- 2 Driver access plate with stainless steel safety retention chain and captive hardware
- 3 Field-replaceable LED circuit boards and drivers with quick disconnects
- 4 Approved for high-ambient applications, up to 65°C
- 5 Two permanent safety cable retention points

LED flood lighting for hazardous locations

Additional Features

- Versatile trunnion mount, with 180° range of motion
- Dual hub entries, feed-through capable
- Terminal block
- Optional polycarbonate lens
- Standard 10kV surge protection
- 5-year warranty

Classifications

HLHB Hi-Lumen LED

Key Features

- ① Four (4) 12" Stainless steel sash chains for convenient access to the wiring compartment
- ② Spring pressure connection terminal block
- ③ Interchangeable optics with 45, 60, 90 and 120 degree beam angle options
- ④ Field replaceable LED circuit boards, LED modules and drivers with quick disconnects
- ⑤ Four (4) safety cable attachment points

LED high-bay lighting for hazardous locations

Additional Features

- Chain/cable and surface mounting
- Emergency battery backup option
- 0-10V dimming, range 10-100%
- Standard 10kV surge protection
- 5-year warranty

Classifications

- Class I, Division 2, Groups A, B, C, & D
- UL 1598A marine outside type
- UL 1598 wet locations
- UL 8750 LED safety

SAFJ Hi-Lumen LED

Key Features

- ① Wide distribution pattern with uplight
- ② Field replaceable LEDs and drivers
- ③ Hinged mount for easy access to internal components
- ④ Isolated LED compartment reduces temperature within driver housing
- ⑤ Unique design enhances airflow for greater heat dissipation
- ⑥ Heavy-duty tempered glass lens
- ⑦ Type I, III and V light distribution options

LED area lighting for hazardous locations

Additional Features

- Pendant, ceiling, wall and stanchion mounting options
- Terminal block
- Mates directly to SAFJ and select competitor mounts
- Dimming option
- Optional stainless steel guard
- Standard 10kV surge protection
- 5-year warranty

- NEMA 4X
- IP66
- Tested to LM79 and LM80 standards
- ATEX/IEC/EX approvals

Standard Materials

Body: A360 aluminum (less than .4% copper content)
with baked-on gray epoxy finish

Gaskets: one-piece silicone

Lens: borosilicate glass

Hardware: stainless steel

LHFL HIGH-/MID-BAY LED

Key Features

- ① High-performance precision optics system
- ② Field-replaceable LED circuit boards and drivers with quick disconnects
- ③ Approved for high-ambient applications, up to 65°C
- ④ Two permanent safety cable retention points
- ⑤ Terminal block

LED area lighting for hazardous locations

Additional Features

- Dual hub entries, feed-through cable
- Optional polycarbonate lens
- Standard 10kV surge protection
- 5-year warranty

SAFR LED

Key Features

- ① Optics feature wide distribution pattern with uplight
- ② Hinged mount for access to internal components
- ③ Field-replaceable LED circuit boards and drivers with quick disconnects
- ④ Clear or diffused lens options
- ⑤ Low profile
- ⑥ No external fins

LED area lighting for hazardous locations

Additional Features

- Pendant, ceiling, wall, cone and stanchion mounting options
- Terminal block
- Dimming option
- Optional prismatic refractors
- Optional adapter ring mates to select competitor mounts
- Optional stainless steel threaded inserts
- Optional stainless steel guard
- Standard 10kV surge protection
- 5-year warranty

XHBF LED

Key Features

- ① Low profile body, less than 7" high
- ② Interchangeable optics with Type I, III, V, medium, wide, narrow and very narrow distribution options
- ③ Spring pressure connection terminal block
- ④ Field replaceable LED circuit boards and drivers with quick disconnects
- ⑤ Optional trunnion mount with five locking positions in 15 degree increments
- ⑥ Two (2) safety cable attachment points with optional eye-bolts

Explosionproof LED Area Lighting

Additional Features

- Certified for hydrogen atmospheres (group B)
- Emergency Battery Backup option with switching capability
- Mates directly to SXP/SXPJ HID mounts
- 0-10V dimming, range 10-100%
- Standard 10kV surge protection
- 5-year warranty

Rig-A-Lite

XML LED

Key Features

- 1 Low-profile, lightweight design
- 2 Convenient wiring access through screw-cap cover with toolless, cage-clamp terminal block
- 3 Self-contained emergency battery back-up, no additional junction box required
- 4 Heavy-duty, 7/16"-thick die-cast safety cable attachment points
- 5 Replaceable LED circuit boards and drivers with quick disconnects
- 6 Adjustable mounting bracket with 90° range of motion and 13 locking positions

Explosionproof linear LED lighting

Additional Features

- Central safety cable attachment points for increased safety/reduced range of motion
- Feed-through and pendant mount capable
- Diffused lens option
- Standard 10kV surge protection non EM models
- 4kV surge protection, EM models
- 5-year warranty

Hazardous location expertise and technical support ensure optimal product selection for each environment

Rig-A-Lite

FPHB LED

Key Features

- 1 Sleek, debris-shedding design with drip edge
- 2 High-pressure hose tested to 1,500 PSI
- 3 NSF approved finish
- 4 Field-replaceable LED circuit boards and drivers with quick disconnects
- 5 Drop lens for increased uplight

Debris-shedding LED area lighting for harsh environments

Additional Features

- Optional emergency luminaire, 3 hour minimum
- 0-10% dimming option
- Optional anti-microbial cord
- 85 CRI on certain models
- Standard 10kV surge protection
- 5-year warranty

Standard Materials

Body: A360 aluminum (less than .4% copper content)
with baked-on epoxy finish
Gasket: silicone
Lens: prismatic polycarbonate
Hardware: stainless steel

Classifications

- UL 1598 wet locations
- UL 8750 LED safety
- UL 924 emergency lighting
- NSF-certified food equipment
- NEMA 4X
- IP66
- IP69K
- 1500 PSI hose-down
- 200-hour salt spray tested
- Natatorium rated
- DLC Listed (not all models listed. See DLC QPL for more information)

FPF LED

Key Features

- ① Patented liquid- and debris-shedding design
- ② Dual gasket seals (patent pending)
- ③ High-pressure hose tested to 1,500 PSI
- ④ 3' #16 AWG 3 conductor cable and cord grip
- ⑤ Single-bolt access to components
- ⑥ Optional quick disconnect 3P plug and receptacle with 6' cord
- ⑦ Field-replaceable LED circuit boards and drivers with quick disconnects

*Debris-shedding linear
LED lighting*

Additional Features

- Diffused lens
- Heavy-duty extruded aluminum LED tray
- Optional emergency battery back-up with EM markings
- Optional stainless steel end caps
- Optional dimmable driver
- Standard 10kV surge protection
- 5-year warranty

Standard Materials

- Body/lens: DR acrylic
- LED tray: 6063-T5 aluminum
- Driver cover: 3105 H24 aluminum
- End caps: polycarbonate
- Gaskets: silicone
- Diffuser: acrylic
- Hardware: stainless steel

Classifications

- UL I598 wet locations

Rig-A-Lite

WFH LED

Key Features

- ① Water-/debris-shedding housing design
- ② Heavy-duty, continuous-seam-welded, 1/16"-thick housing
- ③ NSF-certified finish
- ④ Lens frame held captive by two nylon-coated stainless steel cables
- ⑤ Field-replaceable LED circuit boards and drivers with quick disconnects
- ⑥ Dual 1/2" NPT or single 3/4" NPT conduit hubs

*High-bay lighting for
hazardous and wet locations*

Additional Features

- Captive hardware
- Optional hinged lens frame
- Pendant and cable mounting options
- Dimmable driver
- Meets USDA poultry inspection requirements
- Standard 10kV surge protection
- 5-year warranty

Classifications

- Class I, Division 2, Groups A, B, C, and D
- Class II, Division 2, Groups F and G
- Class III

Durable design and high-quality materials deliver exceptional illumination year after year in the most punishing environments

AVPH LED

Key Features

- 1 Compact luminaire with high lumen output
- 2 Rugged 5/32"-thick housing
- 3 Glare-reducing frosted globe
- 4 Field-replaceable LED circuit boards and drivers with quick disconnects
- 5 Standard protective guard

LED globe and guard lighting
for hazardous locations

Additional Features

- Ceiling, pendant and wall mounting options
- No external fins
- Optional dimming driver
- 5-year warranty

Classifications

- Class I, Division 2, Groups A, B, C and D
- Zone 2, Groups IIA, IIB and IIC
- UL 1598A marine outside type
- UL 1598 wet locations

Rig-A-Lite

XPEL LED/XPEH LED

Key Features

- ① Two adjustable high-lumen spotlights
- ② Independent battery back-up system for exit signs and spotlights
- ③ Unit can power up to two optional remote spotlights
- ④ Field-replaceable LED circuit boards and drivers with quick disconnects
- ⑤ Emergency battery back-up integral to sign (no additional enclosure required)
- ⑥ 3-hour emergency operation
- ⑦ Edge-lit sign

Explosionproof LED emergency light and exit sign

Additional Features

- Captive, hinged-access door
- Wide- and narrow-beam optics available
- Separate push-to-test and pilot light for local and remote heads
- Separate sealed NiCad batteries for exit sign
- Alternate exit legend and languages available
- Single- or double-sided option
- Three 1" NPT hubs
- Red or green LED options

Classifications

- 10°C to 45°C ambient temperature (XPEH red)
- NEMA 4X
- IP65

- cUL listed
- NFPA 70- and NFPA 101-compliant

Standard Materials

Body: A360 aluminum (less than .4% copper content)
with baked-on gray epoxy finish

Gasket: one-piece neoprene

Sign: acrylic

Hardware: stainless steel

XPS LED/XPEX LED HLEX LED/HLS LED

Key Features

- ① Emergency battery back-up integral to sign (no additional enclosure required)
- ② 3-hour emergency operation
- ③ Optional battery back-up self-diagnostic feature
- ④ Field-replaceable LED circuit boards and drivers with quick disconnects
- ⑤ Edge-lit sign

Explosionproof LED lighting

Additional Features

- Wall, pendant and end mounting options
- Custom colors and languages available
- Single- or double-sided option
- Sealed NiCad batteries
- Three 1/2" NPT hubs
- Red or green LED options

Classifications
